

Sanitizing/Disinfecting Wipes Kits

1

Load the dry wiper roll into the re-usable bucket.

2

Pour 1 Qt. of the RTU Maxim Disinfectant into bucket.

3

Thread the first wiper through the lid and close.

- Easily add a wet wipe to your existing cleaning regimen, the kit utilizes whatever cleaning solution you already use.
- Control how saturated the wipes become based on your cleaner and application.
- Reusable bucket has an airtight lid to keep your wipes saturated, avoid contamination and reduce staff exposure to the chemicals.
- Wipers easily absorb the cleaning solution while remaining durable to handle your daily cleaning needs.
- Each coreless roll pulls from the center - perfect for feeding wipers through the sanitizing kit bucket lid.
- Ideal for surface cleaning and sanitizing as well as removing soil, oil and grease.

For use in healthcare, education, food service, retail, hospitality, offices, restrooms, industrial fitness centers, automotive, residential, general cleaning and more...

Not recommended for bleach-based solutions.
